# Christian Blume, PhD

Senior Software Developer

NZ Permanent Resident

□ chr.blume@gmail.com

□ bloomen

□ christian-blume

## Summary

Experienced senior software developer with a demonstrated history of creating software for server and desktop applications. Skilled in C++, Python, Rust, Linux, audio, graphics, physics, and data science. Strong engineering professional with academic degrees in physics and geoscience.

## Work Experience

Since Apr 19 Senior Software Developer at MEGA The Privacy Company in Auckland, New Zealand.

- Develop software in C++ for MEGA's desktop and mobile applications
- o Implement new features and fix bugs in MEGA's open-source SDK
- o Improve the core engine that keeps files in sync between client and cloud
- Focus on highly efficient and scalable solutions
- Continuous integration, unit testing
- o Tech: Linux, Windows, Mac, C++, C, Crypto, Qt, SQLite, gtest, inotify

#### Jul 16 - Mar 19 Senior Software Engineer at Serato Limited in Auckland, New Zealand.

- Real-time applications (DJ, Studio) for the audio industry on Mac and Windows
- Object-oriented, multi-threaded, high-performance software in C++
- o Develop and improve graphical user interfaces using Qt
- o Develop new modules and frameworks along with maintaining existing software
- o In-depth work with MIDI and audio interfaces and hardware
- Unit testing, mentor fellow developers, sharing knowledge in seminars
- Tech: Mac, Windows, C++, Python, Bash, SQL, SQLite, Qt, Boost, Juce, gtest, XCode, Visual Studio, LLDB, QML, Curl

#### Mar 14 - Jun 16 Senior Software Developer, Team Lead at Fotech Solutions Ltd in Calgary, Canada.

- Server-based Distributed Acoustic Sensing (DAS) applications on Linux
- Lead a team of four to five developers within an agile environment
- o High-throughput, multi-threaded, high-performance software in C++ and CUDA
- Algorithms for data analysis, signal processing, and machine learning
- Inter-process communication and asynchronous I/O
- o Real-time data processing, graph-based data flow, HDF5 data storage
- Unit testing, system testing in Python, and continuous integration
- Tech: Linux, C++, C, CUDA, Python, Ruby, Bash, SQL, SQLite, Qt, Boost, libunittest, Armadillo, NetCDF4, HDF5, LIBSVM, Eclipse, GDB, REST, Websockets, Curl

#### Jun 12 - Feb 14 **Software Developer** at **Blue Yonder GmbH** in Karlsruhe, Germany.

- $\circ\,$  Automated cloud-based prediction service on Linux
- Object-oriented, highly-available software in Python and C++
- O Data analysis, web services, machine learning, user interaction
- Built and tested REST interfaces, in-depth work with relational databases
- Unit testing, system testing, and continuous integration
- Tech: Linux, Python, C++, Bash, SQL, Redis, PostgreSQL, EXASOL, Boost, CppUnit, NumPy, Pandas, Scikit, SciPy, Flask, GDB, REST, Nginx

#### Feb 09 - Apr 12 Research Scientist at Freie Universität Berlin, Germany.

- o Geoscience, atmospheric science, machine learning, and pattern recognition
- o High-performance applications to model high-dimensional, geophysical data

- o Algorithms in C++, Python, and Matlab for machine learning and signal processing
- o PhD in geoscience and several peer-reviewed publications
- Presented results at numerous conferences; gave seminars in statistics
- Tech: Linux, C++, Python, Matlab, Bash, NetCDF3, ROOT, TMVA, LIBSVM, FFTW, GDB, LaTeX

Sep 08 - Jan 09 Intern at Siemens in Munich, Germany.

Built the prototype of a web interface for internal business processes using PHP and MySQL

Oct 07 - Jan 08 Intern at IBM Research and Development in Böblingen, Germany.

• Evaluated the Linux I/O Stack on an IBM Mainframe using C and C++

#### Education

Feb 09 - Apr 12 Doctorate degree in geoscience from Freie Universität Berlin, Germany.

Areas of research: Atmospheric interactions, stratospheric weather and climate patterns, forecasting and pattern recognition, machine learning. Developed software in C++, Python, and Matlab for machine learning, signal processing, and data analysis.

Thesis: Statistical learning to model stratospheric variability.

https://refubium.fu-berlin.de/handle/fub188/13901

Oct 05 - Jan 09 Master's degree in physics from Technical University Munich, Germany.

Specialized in particle and computational physics. Developed software in C++ for simulations and data analysis.

Thesis: Simulation of frictional cooling.

Feb 05 - Aug 05 Study abroad at Universitat de València, Spain. Majoring in physics.

Apr 03 - Feb 05 Intermediate diploma in physics from the University of Bonn, Germany.

#### Technical Profile

Languages English (fluent), German (native), Spanish (basic), Mandarin (elementary)

Operat. Systems Linux/Unix, MacOSX, Windows

Programming C++, C, Python, Rust, JavaScript, Java, Go, CUDA, Bash, UML, SQL, QML, Matlab

Libraries BOOST, Armadillo, NetCDF4, HDF5, Qt, Juce, React, OpenMP, NumPy, Scikit, SciPy, Pandas, TensorFlow, Keras, IntelMKL, ROOT, TMVA, LIBSVM, OpenCV, FFTW, etc.

Databases PostgreSQL, SQLite, EXASOL, MySQL, Redis

Networking HTTP, Sockets, REST, SSH, XML

Tools Eclipse, Xcode, Visual Studio, GDB, LLDB, Emacs, GCC, Clang, GIT, SVN, LaTeX

Miscellaneous Low-Latency, High Performance, Monte Carlo, Unit Testing, Solid Presentation Skills

Mach. Learning Support Vector Machines, Neural Networks, Linear Models, Decision Trees, Clustering

#### Recent Presentations

Oct 2017 **Using tasks to simplify concurrency in modern C++** at Pacific++ conference https://youtu.be/xuL7rfkcWus

May 2017 **transwarp - a header-only C++ library for task concurrency** at Auckland C++ Meetup https://github.com/bloomen/talks

## Selected Authored Open-Source Projects

Projects hosted at https://github.com/bloomen

- o transwarp A header-only C++ library for task concurrency
- o rsgrep A simple version of grep implemented in Rust
- o cxxpool A header-only thread pool for C++
- o densitas A C++ library for density estimation of regression problems
- o hashstore A simple key-value-store with HTTP-API written in Rust, Go, Python, and C++

Projects hosted at https://sourceforge.net/u/bloomen/profile

- o libunittest A portable C++ library for unit testing
- o libpca A C++ library for principal component analysis
- o featureimpact A Python package for estimating the impact of features on machine learning models

#### Hobbies

- Working out and hiking
- o Surfing when it's warm out, currently riding a 6'3 fish
- Volleyball, in particular beach volleyball
- o Tinkering and open-source projects
- Learning Mandarin
